

VISIT US IN BANGOR, ME

MAY 1st & 2nd
BOOTH E 15/16

David Rideout Fitter/Welder

David has been with Craig for nearly seven years and is often called-on for the biggest attachments requiring steady, accurate multi-pass welding. David also runs a small automotive bodywork shop from home..

Rick Williams Plasma Operator

Rick has been with Craig for 3 years but has worked with Torch, Plasma, and Lazer computer guided cutting systems for years before coming on board with us. He's an avid golfer who gets on-course at least 3 times a week during the season.

Danny Clark Inside Sales Rep

Danny comes from a background in Freightliner, Western Star and Sterling truck sales and has been with Craig for just over a year and a half. When he's not working Danny enjoys exploring the winter forest on snowshoes and the summer rivers and streams by canoe.

Sale Extended

HUGE FACTORY SALES EVENT

EXTENDED!
BY POPULAR DEMAND

UNIVERSAL HYDRAULIC PAD-MOUNT THUMB Fits all 10 to 20 Ton Excavators - \$3,295*

Well, when you like something you let us know. We even had to sell the display thumb right off the trade show floor in Toronto. Because of this popular demand we're extending this special pricing sale deadline until the end of May.

Now, with extra in stock, we're able to ship these thumbs on the same day we receive your order.

The CRAIG Universal Pad-Mount Thumb is the perfect stocked solution for outfitting machines with a durable, easily installed, fully hydraulic thumb that is customizable to the specific tip-radius of each machine. When not in use the thumb weldment tucks up close to the stick for unparalleled visibility and convenience.

** MSRP Price Listed (Canadian Dollars). Standard dealer discount structure and exchange rate discounts applicable. Special Limited Time Promotion. Not valid with any other promotion. Tax, installation, dealer fees, and shipping extra. Jumper hoses not included.*

Find out more by contacting your local Craig sales rep. Email sales@craigattachments.com or call 1-800-565-5007

Universal Skidsteer Forks

ONLY
\$869*

CRAIG UNIVERSAL SKIDSTEER PALLET FORKS

These forks feature 1.375" X 4" X 42" L-Tine Forks and a 50" wide frame. Back frame hoops allow you to carry the load securely without sacrificing visibility. Attaches to all skidsteers with standard skidsteer coupler. Paint colour: Black.

** MSRP Price Listed (Canadian Dollars). Standard dealer discount structure and exchange rate discounts applicable. Special Limited Time Promotion. Not valid with any other promotion. Tax, installation, dealer fees, and shipping extra. Jumper hoses not included.*

Jobsite All Stars

JOBSITE ALL STARS

CRAIG Quik-Fill Ditching and Trenching Buckets have been specifically designed for your challenging job sites. With extended base edges and a curved side-cutter design these buckets minimize surface friction and eliminate unproductive tipping of the bucket to ensure the highest productivity during filling and dumping.

Craig Quick-Fill buckets with wedge-lock coupler are also outfitted with the **Dorsal Transport Technology** carrying system to allow both buckets to be moved at once when relocating your excavator.

With Craig you're sure to find dependable ready-to-work gear. Give us a call or checkout our website to find out how Craig Attachments can work for you.
