

EXB-CBB

4-in-1 Bite Bucket

The 4-in1 Bite Bucket is a versatile tool combining all the best aspects of a standard dig bucket, clam grapple, ditch bucket and chuck blade. With this one attachment you can minimize the need for additional machines on the job-site. Dig like a standard bucket, move materials securely, grade the finished piece with the straight cutting edge, skim ground cover with the serrated reverse clam edge or securely grab a piece of I-beam to smooth large areas all at once. This bucket is also great for accurately spreading aggregate into trenches by using the bucket as a "belly dump"

- Superior Brinell 400 steel is used in all wear areas.
- Available in Wedge-Lock, Pin-on, S Series, or Manual Bar Lock lugging
- GET parts to your specifications
- Pin-On hook-ups are align-bored to OEM tolerances
